

Facilitation Skills for Chaotic Times

Presented by

MENDO Futures

The challenges of working in today's organizations have become more complex and less predictable. In a world which is quickly becoming more connected through technology, there is a growing need to improve our communication skills. This intensive training program helps participants understand organizational systems, leadership and skills to better facilitate the most demanding, challenging and creative types of group interactions.

Training manual

Your Instructor:

Steve Zuieback is a management consultant and master facilitator with over 30 years of experience.

Steve Zuieback's facilitation workshop was incredibly fun and informative. As a city manager, I draw upon the skills I gained on a daily basis while preparing for and participating in discussions, negotiations, and public meetings."

- Linda Ruffing, Ft. Bragg City Manager

"This is a class for our time. Steve Zuieback has well-boned knowledge, skills that he imparts about leading groups through their stuck places, creating stronger functioning organizations as a result. Then there's the great networking that results from the focus on real community issues with other folks working for the common good here."

- Mary Anne Landis, Ukiah City Council

"When you get done with this facilitation class you will have and understand the tools to prepare and deliver a 1st class facilitation process to any group, or client. These are the type of skills that can help our community progress towards positive and sustainable change."

- Art Harwood, Executive Director of the Redwood Forest Foundation

Space is Limited! Preregistration is REQUIRED!
